

# LIF THOR BALDUR 2

by Thor's Drone World

## User's Manual

Congratulations on your new

# LIFT HOR BALDUR 2

The **New & Improved** Tablet holder  
for DJI Mavic AIR 2(s) / Mini 2 / Mavic 3 PRO

# Content:

Aluminum base

Universal clamp

Compatible with smart phones  
and up to 12.9" tablets  
(expanding clip range  
65mm - 230mm)

Star knob  
thumbscrew  
( $\frac{1}{4}$ " -20 x  $\frac{1}{2}$ " )

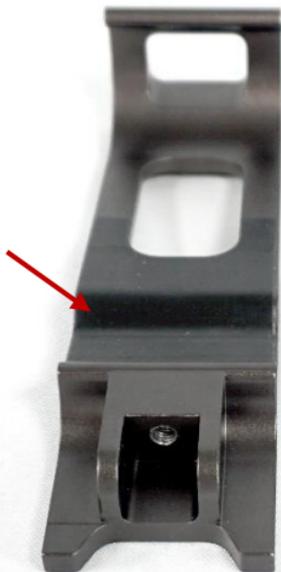

Hex Key /Allen Key

# How to assemble:

Remove the wing knob  
thumbscrew located on the  
back of the aluminum base

Main aluminum base

Utility mount

Neck

Wing knob  
thumbscrew  
(M5 x 20mm)

**\*Note:**

The aluminum base has pre-installed anti-slip pad to protect the RC from any scratches and keep it secure in place.

Prepare the RC by extracting the antenna all the way out

Gently lower the RC into the bay of the base with a slight inclination. Aligning the RC center to the mount

Make sure the RC is aligned and centered properly

Reconnect the neck of the aluminum base between the antenna bars back to the main body.

Finish screwing back the wing knob thumbscrew in place

The RC is now securely mounted to the LifThor Baldur2 holder

Insert the star knob thumbscrew from below the utility mount through the small round hole.

If needed you can loosen up the utility mount using the hex key provided to adjust its angle.

Screw the universal clamp in place

Ratchet part to →  
adjust the height

← Release  
button

Release →  
button

The **NEW** universal clamp has **two** mechanisms to ensure your tablet sit secure and in place.

The **first** mechanism is the ratchet part, it can be extended in 6 fixed steps (3 on the top / 3 on the bottom) to adjust to the size of your tablet. We recommend setting it a little smaller (1" / 2.5cm) than the actual size of the tablet for a tight, secure fit.

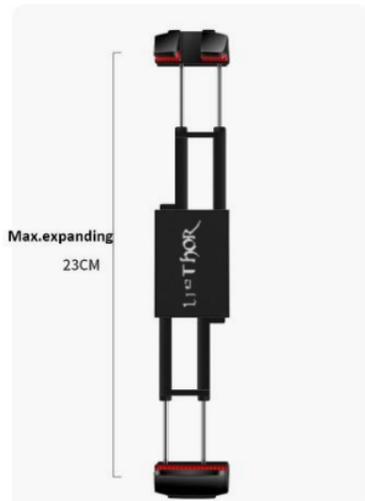

Press and hold the side buttons to extend the ratchet mechanism

Place the phone / tablet in landscape mode by pulling the spring mechanism upwards and release it to secure the device in place.

**\* It's the spring-loaded part that will hold your device in place !**

Compatible with most smart phones and tablets up to 12.9"  
Minimum expanding 6.5cm – Maximum expanding 23 cm

# Alternative setups:

Integrated tripod  
mounting point located  
underneath the  
aluminum base

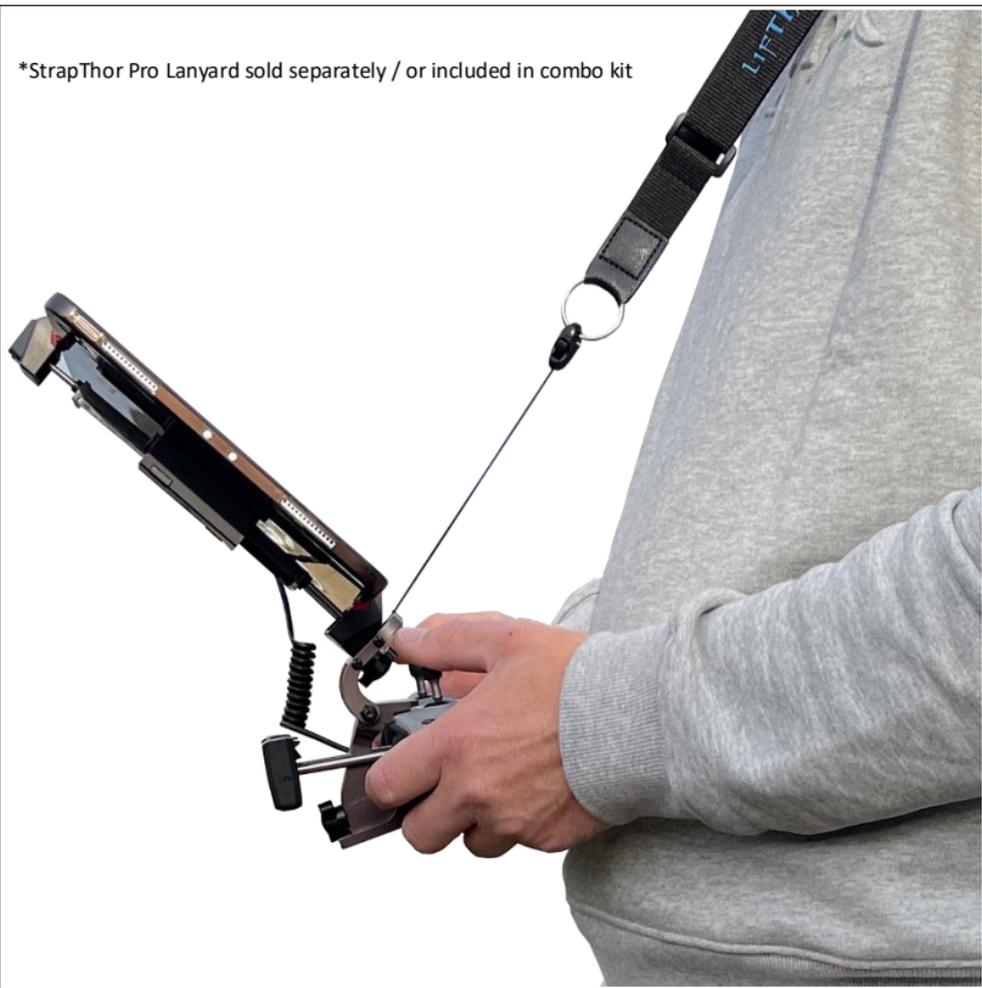

STRAPTHOR  
**PRO**

\*StrapThor Pro – Body Tripod sold separately

\*StrapThor Pro Lanyard sold separately / or included in combo kit
